PLEASE SUPPLY ARTWORK MADE UP TO THESE SIZES

- We recommend you set text larger than 7pt. Small text should be set in a sans serif typeface for increased legibility. Yellow® takes no responsibility for unreadable content in customer supplied files.
- 'Spot' colours are NOT actually spot colours – they are CMYK but use the name of the colour e.g. RED. This is because customers are billed according to the number of colours used in the ad, e.g. a 2UH2 uses 2 colours, BLACK plus 1 of the colours – RED, YELLOW, GREEN OR BLUE; a 4UH4 uses BLACK plus 3 of the others – RED, YELLOW, GREEN OR BLUE.
- YELLOW = Y100   RED = M100 Y100   GREEN = C100 Y100   BLUE = C100   BLACK = K100
- Cannot have process colours in a Logo Typeset in Yellow pages. 4TSL – black only, 4TSL2 – 2 spot colours, 4TSLM – 3 or more spot colours.
- Do not mix or blend Yellow pages 'spot' colours. All colours must knockout (must not overprint).
- For Yellow pages White Knockout ads, apply normal CMYK process colours.

\* Supplied ad size has not changed. Any artwork already provided does not need to be resized.

\*\*The book size will be reduced to 10% shorter and 10% narrower during the pre-press process which will reduce the actual size of the published ad, however ads will be in the proportions shown above. (Excludes Timaru & Oamaru).
